

Diagnostic Green

Dear Valued Customer,

This is to inform you that on Monday, February 23, all assets related to the PULSION Perfusion business unit have been sold and transferred to Diagnostic Green GmbH, a subsidiary of the Renew Private Group Limited. Maquet Medical Systems AG, the dominating shareholder of PULSION, decided for strategic reasons to divest the Perfusion business unit and sell it to the Renew Private Group Limited. In the future PULSION will concentrate solely on its Critical Care business.

The new company will operate the Perfusion business going forward and plans on continuing the business in Munich, as in the past, with the same core team but under its own name. Diagnostic Green GmbH will happily continue fulfilling your orders under the same terms and conditions and pricing structure as previously offered by PULSION.

Until the new company can operate fully independently, PULSION will assist in providing transition services necessary to operate the business. During the transition Diagnostic Green GmbH will keep you updated on any changes that may affect you including changes in contact information and where to place your orders.

Both PULSION and Diagnostic Green GmbH are committed to a smooth transition. If you have any questions, please do not hesitate to contact Tony Harris, now an employee of Diagnostic Green GmbH (harris@pulsion.com, +49 89 459 914 454 or +49 173 587 3809).

We look forward to continuing to serve your needs.

Best regards,

Tony Harris
